

**Product name:** **Property away and in transit**

### **Customer needs and objectives**

---

Customers may own property which they need to take away from their premises when attending exhibitions or promotional events and require insurance to protect them when this property or equipment is accidentally lost, damaged or stolen.

### **Product design**

---

Following the latest product review and fair value assessment the product has been approved as providing the expected value to customers. The metrics and other insight reviewed suggest the product is understood and well utilised by customers. For information on the key benefits and any notable exclusions please see the relevant policy summary, or contact your local Hiscox underwriter.

### **Target market**

---

Property away and in transit insurance is a commercial product designed for businesses who travel with equipment.

### **Non-target market**

---

This product is not designed to support customers who do not travel with property or equipment.

### **Recommended distribution strategy**

---

This product may be sold on an advised or non-advised basis. It is suitable to be sold face-to-face, through telephony sales or via a quote-and-buy website.

**Fair value assessment**

Date of last fair value assessment: March 2024

Expected date of next assessment: within 12 months of the last assessment

As a result of our fair value assessment, we have concluded our property away and in transit is providing the expected value to customers.

1. The product is compatible with the needs of the target market.
2. The distribution and remuneration strategy remains appropriate, we are not aware of any distribution and remuneration arrangements having a detrimental effect on the overall value of the product.
3. The quality of the service provides the expected value.

**When completing our fair value assessments, we consider all information that is available and relevant including information provided by our distributors. We also continually monitor key metrics throughout the year to give us ongoing assurance that products are providing the value expected. Where information is outside of our tolerance levels, we may review the product outside of the scheduled timeline.**
